STATE EXCISE LABEL

1) The Polyesterised Excise Labels are issued to eleven IMFS manufacturing Units, six Beer manufacturing units and one Wine manufacturing unit in the State to be pasted on the IMFS / Beer / Wine bottles manufactured by them. The Polyesterised Excise Labels are also issued to all the TASMAL Depots for affixture on IMFS/Beer bottles imported from other States.

2) In the beginning the printing unit for printing of State Excise Labels was functioning under the direct control of Commissioner of Prohibition and Excise. Three printing machines imported from Japan were functioning with a capacity to print 700 lakhs excise labels per month at the rate of 28.0 lakhs per day in three shifts for 25 days in a month. Upto December 97, the excise labels were printed in black colour on colour paper. To prevent production and circulation of spurious labels, modernisation was taken up and they were printed in three colours with computer generated design. From May 1999 Security Holograms were laminated on the paper stalk to make the Excise Labels foolproof. Consequent on the introduction of security holograms, the issue price of the Excise Labels has been increased from 10.0 paise to 15.0 paise per label w.e.f. 15.11.99 as per G.O (Ms) .No. 247, P&E VII Dept., Dt. 15.11.1999.

3) Then, the contract for production and supply of Polyesterised Hologram Excise Labels on Turnkey basis was awarded to Tvl. Holostik India Limited, New Delhi w.e.f. 04.09.2003 and they are supplying the new labels from March 2004 onwards. As such, the printing of Paper Adhesive Excise Label was stopped at Excise Label Printing unit, Chennai-5 w.e.f 31.07.2004. The above contract twice expired on 30.04.2007. Again, the contract was awarded to Tvl. Holostik (India) Limited as they happen to be "L1" tenderer. Now, the total requirement of Hologram Excise Labels is 40 lakhs per day. The Polyesterised Hologram Excise Labels were procured at the cost price of Rs.0.1150 per Label and the selling price was Rs.0.17 per label. The price revision took effect from 04.07.2006 with a net margin of Rs.0.055 per label as per G.O (Ms) No. 40, P&E Department, Dated. 04.07.2006.

4) After the expiry of the above said contract during April'2007, the contract was awarded to Tvl. Holostik India Ltd., this time too, being "L1" tenderer and the contract period resumed from 02.05.2007. The requirement of Labels is 50 lakhs per day with the procurement and selling price was fixed at Rs. 0.14375 and Rs. 0.20 per label respectively to maintain the existing net profit of Rs. 0.055 as per G.O (Ms) No. 26, Home (P&E – VII) Department, Dated. 01.04.2007.

5) During the year 2011 also, the contract was awarded to Tvl. Holostik India Ltd., this time too, being "L1" tenderer and the contract period commenced from 01.10.2011. The requirement of Labels is 80 lakhs per day and the Labels are being procured at the cost price of Rs.0.17667 per Label and the selling price has been proposed to be Rs.0.25 per label. The price revision was from 01.10.2011 with a net margin of Rs.0.07333 per label as per G.O(Ms)No. 32, Home(P&E VII) Dept. dated 16.07.2012.

The features of PHEL are furnished below :

NUMBERING FORMAT

AS EXAMPLE:

1ST LINE	.. 2007-2008
2ND LINE	.. 6 RMVT75
3RD LINE	.. 123456789

The above code represents the following as given below:

YEAR

DISTILLERY CODE/PRODUCT CODE/COMMISSIONER CODE

SERIAL NUMBER

The serial number is also etched by laser now.

THE TABLE DESCRIBES THE PRODUCT TYPE, COLOUR OF FILMS & PRODUCT CODE

Sl. No.	Product Name	Film	Product Code
1	Scotch whisky & Wine	Silver	IMFS-SW
2	Beer	Green	BEER
3	Brandy	Grey Brown	IMFS-BR
4	Vodka	Gold	IMFS-VK
5	Rum	Pink	IMFS-RM
6	Whisky	Copper	IMFS-WY
7	Gin	Blue	IMFS-GN

TECHNICAL SPECIFICATIONS**(A) MASTER ORIGINATION****1. High Security Master made from**

- ❖ True 3D and 2D/3D conventional origination system and
 - ❖ DOT MATRIX digital origination system of minimum 12000 pixel resolution and with 4000 DPI or more dot resolution recombined together
 - ❖ Multi level animation effect
 - ❖ Four channel effect
 - ❖ Pearl effect with hidden micro text,
 - ❖ Vast raster image
 - ❖ Concealed animated image
 - ❖ Multiple LASER viewable animated covert image
 - ❖ Kinetic and diffractive animated GUILLOCHE patterns (Randomly computer generated pattern) for high security.
 - ❖ The logo or emblem and the 3D True Object as suggested by the Tendering Authority shall be incorporated in the hologram.
2. The suggested art work (at least 3 different designs) is to be submitted by the Tenderer containing the above security features along with the Tender Documents and Technical Specifications. The object for 3D Hologram and the design would however be finalized / furnished by the Department only at the time of placing orders.
 3. The master may be changed at the discretion of the tendering authority at any time during the currency of the tender and the tenderer should have the facilities to produce the master within the time frame specified by the tendering authority.

(B) PRODUCT SPECIFICATIONS:-

The Hologram Label to be supplied shall have the following specifications:-

1	Shape &size	Rectangular; 60 mm (Length) x 15 mm (width)
2	Type and Material to be used	Tamper evident on Metalized Polyester Film of ultra clear EMCL grade with standard quality adhesive material on the label suitable to be affixed (non manual – mechanical application) on bottle cap and partly on the neck of the glass bottle through automatic mechanical applicator. The Hologram should fix firmly to the above portions. The Hologram should be as per the design approved and finalized by the Department.
3	Colour	Specific colours/Multiple colours.The Department will decide this from time to time
4	Thicknesses	35 to 40 Microns and suitable for automatic mechanical applicator.
5	Mastering type	<p>High Security Master made from</p> <ul style="list-style-type: none"> • True 3D and 2D/3D conventional origination system and • DOT MATRIX digital origination system of minimum 12000 pixel resolution and with 4000 DPI or more dot resolution recombined together • Multi level animation effect • Four channel effect • Pearl effect with hidden micro text, • Vast raster image • Concealed animated image • Multiple LASER viewable animated covert image • Kinetic and diffractive animated GUILLOCHE patterns (Randomly computer generated pattern) for high security . • The logo or emblem and the 3D True Object as suggested by the Tendering Authority shall be incorporated in the hologram.

OTHER FEATURES:-

- a) The layers in the Hologram Excise Labels except Micro Text and LASER viewable animated covert image shall be visible to normal eyes.
- b) The Hologram Labels should have serrated edges all around.
- c) The Hologram shall not be affected by normal variation in atmospheric conditions.
- d) The shelf life of the Hologram should be for a minimum of three years without any deformation or deterioration in normal atmospheric conditions.

Coding / Serial numbering: The Hologram Labels should be compatible for Inkjet printing and also Laser etched numbering.

Quality criteria: The quality and adhesion of the Holograms supplied should be suitable to the automatic mechanical applicator.
